Contact Information

In order to submit abstracts online e-mail addresses from the corresponding submitting person and the presenting author are obligatory. Correspondence includes all notification e-mails that inform the "Corresponding Submitting Person/Author" and the "Presenting Author" of the status of their abstract. This is the best way for us to contact you, so it is important that you enter your e-mail address accurately!
Please inform us about any changes immediately!

Preparation

Open the online submission form and follow the fields carefully.
Obligatory information is indicated by stars and coloured in red.
Abstract title and text must be structured and can be as follows: Background, Methods, Results, Conclusion or Discussion.
Use your text editor directly on the form or copy and paste your text from your text editor.
Space indicated by means of US/West European script language. Number of authors is limited (15) as are references to institutions/departments.
The abstract title size is max.200 characters/signs, including blanks
The abstract text size is max. 2000 characters/signs, including blanks (Everytime you press a button on your keyboard it will be counted)
Tables and graphics/figures are to be submitted separately after successful abstract submission.
Avoid complex mathematical formulae. For the plus minus symbols, type +/- instead of \pm Avoid Greek letters and symbols, e.g. 'IFN-g' or 'IFN-gamma'.
When preparing your abstract, bear in mind that it will not only be read by experts in the field but also by colleagues who may not be familiar with the topic.
Please make sure that your abstract is in an accurate form because it will be published exactly as submitted and reviewed!
Changes after submission are **only possible until the deadline 17th January 2010! Please contact: We need the AID and password!**
